

LIBRARY APPETIZER

PURE Hacks

17.12.2025

Theres Wohlfahrt & Maja Bartl

What are the „Library Appetizers“?

- A quick insight into services the library offers for researchers
- An opportunity to get in touch with us & get questions answered
- in english & online, to make it the most accessible

- Downloading your content

Download list: [PDF](#) | [HTML](#) | [RIS \(RefMan\)](#) | [Word](#) | [BibTeX](#) | [CERIF XML](#)

Hack #1: Importing from Scopus

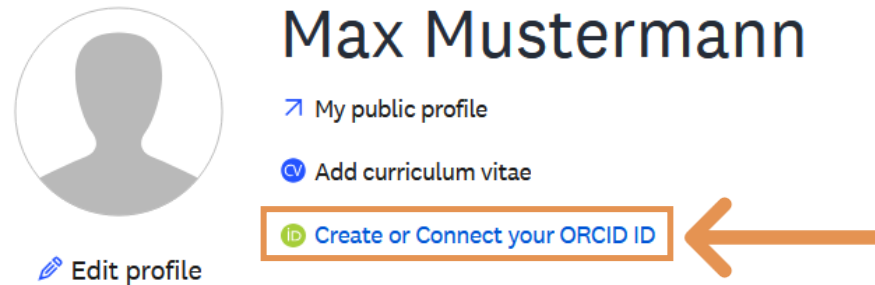

- don't forget to check that it got sorted into the right output category
- please check the whole entry for mistakes

Scopus®

Hack #2: Connecting your ORCID

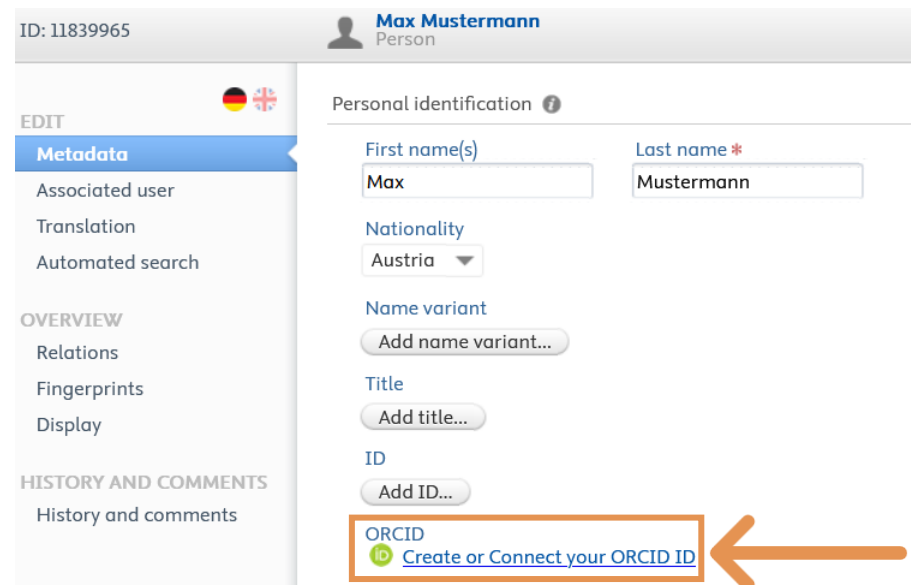

Method #1:

Your advantages:

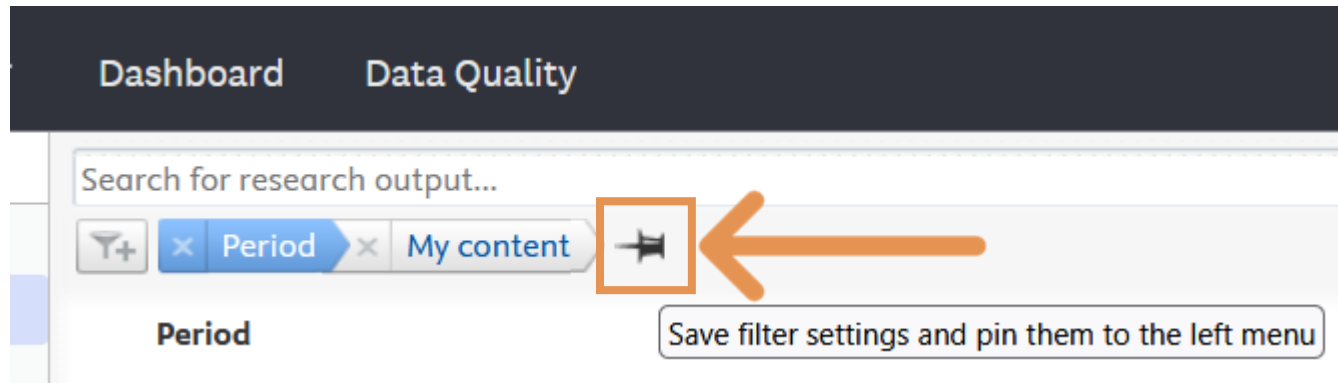

- You only need to add the information on one platform & it will automatically synchronize
- Your organisational affiliation, published research outputs, Scopus author ID will be exported to ORCID

Method #2:

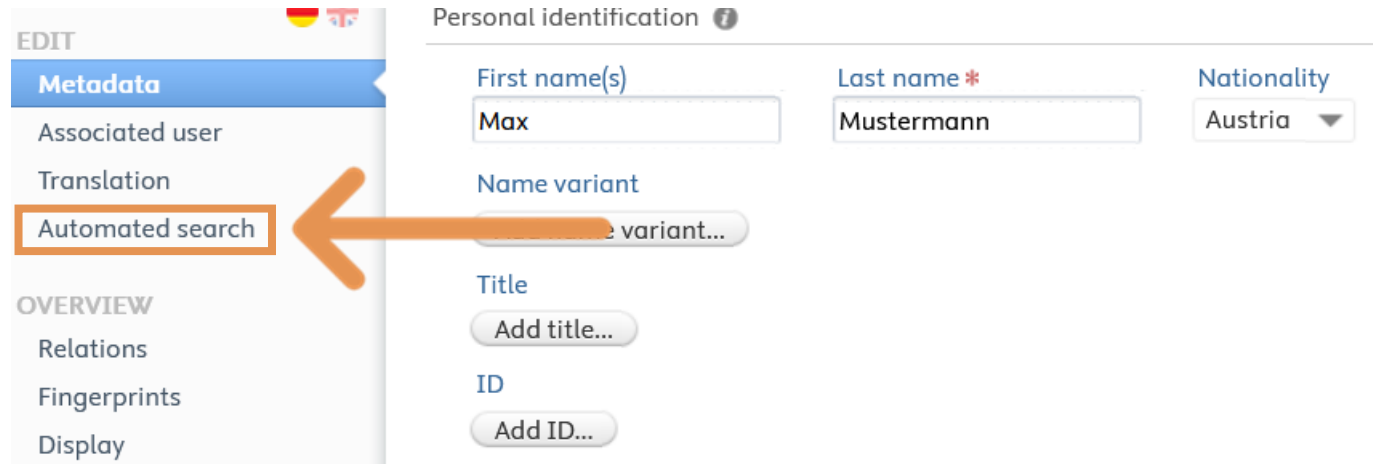

Hack #3: Pin your filters

- If you want to keep certain filter options for your research output, you can pin them:

Hack #4: Enable Automated Search

- PURE will search for your past content from platforms of your choosing (Scopus, ORCID, Web of Science ...) & add them to your profile
- new searches are performed every 7 days
- you will either get a message on PURE or email, if the search was successful
